Car & owner details based on car type

Write a query to display car id, car name and owner id of all the cars whose car type is 'Hatchback' or 'SUV'. Sort the result based on car id.

(Hint: Use **CARS** tables to retrieve records. Data is **case-sensitive**. E.g: Car_type='Hatchback'. Use IN operator)

NOTE: Maintain the same sequence of column order, as specified in the question description
