Welcome Message

Create a web page which should contain an input box, 'Ok' button, and a 'p' tag with the id 'address'. When the user enters his/her name into the text box, display a welcome message using jQuery.

Please refer to the sample page for more clarifications.

Sample Page:

←

→

↺

🏠

ⓘ

file:///C:/Users/!

Enter your name:

Ok

"Welcome Ron!"

Note:

Do not alter the given 'welcome.html' file. Write your jQuery code in the file 'welcome.js'.

Avoid writing the jQuery 'document ready' method for the proper web page visibility.

Do not use 'ES6' features.
