Ice Cream Flavours - Selectors

A web page contains a list of different types of ice creams with different flavors. Write a jQuery script to perform the below activities:

1. Change the **font color** of all the paragraph tags in the web page into '**orange**'.

2. The background color of all list of ice creams that belong to the class '**flavours**' should be '**light blue**' and font size should be **120%**

3. Set the second paragraph font size as **50%**

4. If the **'id'** of any list of ice creams is 'icecreamfloats', then set its background color as '**orange**'

5. Refer to the web page snapshot given below for more clarifications:

Concepts Coverage:- jQuery Selectors [Element selectors, Id selectors, and Class selectors]

Web Page Snapshot:

ICE CREAM TYPES

Choose Your Flavours

- **Moon Mist**
- **Moose Tracks**
- **Raspberry Ripple**

- **Purple Cow**
- **Snow White**
- **Sherbet Cooler**

- **Oyster Ice Cream**
- **Hokey Pokey**
- **Blue Moon**

Note:

1. The HTML part of the program is given as a template. Do not change anything in it. You have to write the jQuery code only in the 'script.js' file.

2. Avoid writing the jQuery 'document ready' method for the proper web page visibility.

3. Do not use 'ES6' features.
